

CARPENTERS TO TAKE APPEAL TO PRESIDENT

Following Failure to Secure Representation on Wage Adjustment Body.

MAY MEAN FURTHER TROUBLE

Head of Brotherhood Says if Mr. Wilson Does Not Act, It Will Be Up to Government to Keep Men in Line.

(By Associated Press.)—Failing to-day to get the approval of representatives of the navy, the Emergency Fleet Corporation and the metal trades unions of his proposal to put a spokesman of the carpenters on the wage adjustment committee in shipbuilding disputes, William L. Hutchison, president of the Brotherhood of Carpenters and Joiners, announced to-day that an appeal would be taken to President Wilson.

"If he does nothing, then we are through," Mr. Hutchison declared, "and it is up to the government to keep the men in line."

"Does that mean a strike?" he was asked.

"How do I know?" was the answer. "They struck last time and only returned to work in response to the President's appeal in the belief that the matter would be adjusted to their satisfaction."

Hutchison said there were 50,000 idle carpenters who could be put to work building ships if the work was available. He indicated some of these men would find work in Canada by announcing that John J. McDevie, of New York, has been offered the post of director of shipbuilding in Canada by the Imperial War Industries board, which asked him to furnish 5,000 workmen and 6,000 iron shipbuilders.

HAS GOTTEN PERMISSION

TO ACCEPT OFFER

"Mr. McGee has asked and received permission to accept the offer," he added, "and the men in the yards doubtless will be glad to get the work."

Hutchison asked that the existing agreement between the metal trades unions and the Emergency Fleet Corporation be changed to provide for a representative of the carpenters, in addition to a general labor representative, who was declared to be unequalled to deal with woodworking questions because his experience has been only in the metal trades. General Manager Pugh, for the Fleet Corporation, refused to consent to the change without the approval of the metal trades unions with which it was made.

The conference to-day, in which Assistant Secretary Roosevelt appeared for the navy, discussed the question for nearly eight hours, then adjourned without agreement of arrangement for a continuance of negotiations. Previous negotiations likewise were unfruitful of results, the striking carpenters having returned to the shipyards when President Wilson declared the war program would be delayed and refused to see Mr. Hutchison.

Mr. Gompers declared the sharp criticism which he said had been made of the carpenters, and which he declared was not all justified. He called attention to patriotic efforts made to recruit union members for war service, including two pages which are being printed in the carpenters' official journal, one page urging men to fill out and mail to the general secretary the form on the opposite page giving the qualifications for shipbuilding.

SEWER AND WATER MAINS ARE ORDERED EXTENDED

Administrative Board Calls for Bids for Grading New Sections of Oakwood Cemetery.

In order to provide adequate water supply for the houses being built in the new sections of the city, the Administrative Board of the Water Works has been directed by the Administrative Board to extend the sixteen-inch water main in Kensington Avenue to a point 155 feet east of Tilden Street, at an estimated cost of \$355.25. The City Engineer was at the same time instructed to advertise for bids for the construction of a sewer in Kensington Avenue to a point 125 feet east of Tilden Street, to be returnable not later than March 15.

The City Engineer was also instructed to furnish the City Attorney with final report in regard to the re-levelling of Broad Street between Third and Tenth Streets.

In reply to his letter requesting the transfer of the moving-picture machine now stored at the City Electric Plant to the Sacred Heart Cathedral for the purpose of entertainment, Rev. E. A. Freeman was notified that it was the intention of the board to use this machine for the benefit of the patients of the Pine Camp Hospital, the Superintendent of the City Electric Plant being instructed forthwith to remove the machine and all necessary equipment to the institution above mentioned.

The Superintendent of Cemeteries was instructed to advertise for bids for preparing the necessary plans and grading in the new addition to Oakwood Cemetery, together with extensions of sewer pipes, the City Engineer's office being instructed at the same time to furnish the necessary plans for these extensions.

The resignation of Dr. C. Wilbur Greer as specialist in orthopedics at the Virginia Hospital was accepted, his letter referred to the advisory staff of the hospital for recommendation.

In accordance with recommendation on the Building Inspector, the petition of Straus, Gunst & Co. permitting them to erect an electric sign at 622 East Broad Street, was granted by the Building Inspector, as it had been the intention of the petitioners to construct a sign of wood, which is contrary to the provisions of the law.

Permission was granted to the officers of Company 2 of the Second District, Gunter Park Home Defense League, for use of the rifle range at a Graves' Army at a date to be determined later.

Arrested Yesterday.

Charged with reckless driving, William Brown, 1207 St. John Street, was arrested by Officer W. E. Brennan, of a Second District, last night.

For beating his wife, Waverly Hopson, colored, was locked up at the cond station.

GOVERNOR DAVIS SIGNS NEWPORT NEWS BILL

Other Measures Are Given Executive Approval, Mostly of Local Character.

Bills signed by Governor Davis yesterday are:

House bill 157—An act providing for the expenditure of the surplus now in the hands of the road board of Borden Magisterial District, in Mecklenburg County.

House bill 164—An act to amend section 1 of an act entitled "An act to provide for the protection of certain far-bearing animals in the County of Loudoun."

House bill 138—An act to amend section 1 of an act to incorporate the city of Newport News.

Senate bill 171—An act to amend section 21 of an act entitled "An act to amend an act to incorporate the town of South Boston."

House bill 157—An act to amend sections 61, 73, 80, 97 and 100 of an act to incorporate the city of Newport News.

House bill 156—An act to authorize the city of Newport News to borrow amounts not exceeding \$200,000 on short-term notes.

House bill 141—An act to provide for a bond issue of \$150,000 by the city of Newport News for the construction of concrete roadways.

House bill 140—An act to authorize a bond issue of \$350,000 by the city of Newport News for municipal improvements.

House bill 131—An act authorizing the Councils of the cities of the Commonwealth having, by the last United States census, a population in excess of 65,000 and less than 100,000, to erect and maintain armory buildings and stables; and authorizing bond issues for the buildings heretofore acquired and erected.

House bill 160—An act authorizing the Board of Supervisors of Charlotte County to receive money belonging to the county arising from the sale of the test farm and secure the payment of the same by taking a deed of trust on real estate belonging to the borrower.

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of impurities.

You will know Dr. Edwards' Olive Tablets by their olive color. 10c and 25c per box. All druggists.

WAR INDUSTRIES BOARD HEADED BY MR. BARUCH

As Chairman, He Is Given Vastly Increased Powers to Control Output.

PRESIDENT DEFINES DUTIES

Proposed to Eliminate All Competition for Supplies Between Various Departments, and Provides for Centralization of Power.

(By Associated Press.)—Reorganization of the war industries board, by President Mr. Baruch, of New York, as chairman, and with vastly increased powers to control the output of American industry during the war, was announced to-day by President Wilson.

Final determination of all questions of priority in deliveries to any department of the United States government and to the allies is vested in the board, an act is charged with co-ordinating and anticipating the needs of any of these, creating or improving facilities for production and advising as to prices.

Much of the power is given to the chairman, with the board acting in an advisory capacity, and he, the President, says, should act as the general eye of all supply departments in the field of industry.

Through the board it is proposed to eliminate all competition for supplies between the various departments, and the allies, thus meeting, in a measure at least, the demand in Congress for centralization of power. There were suggestions to-day that the action now announced was one of the steps contemplated by the President when he sent to the Senate the bill now pending to enlarge his powers for reorganizing and co-ordinating government agencies and that the delay in bringing the measure to a vote caused him to proceed without waiting for legislation. If the bill is passed it will be possible to make more specific some of the authority now given the industries board.

The President prescribed the new duties of the board in a letter to Mr. Baruch requesting him to accept the chairmanship as successor to Daniel Willard, who recently resigned to devote his entire attention to his duties as president of the Baltimore and Ohio Railroad and as chairman of the advisory commission of the Council of National Defense.

The President's letter to Mr. Baruch, in part, follows:

"I am writing to ask if you will accept appointment as chairman of the war industries board, and I am going to take the liberty at the same time of outlining the functions, the constitution and action of the board as I think they should now be established.

"The functions of the board should be:

"1. The creation of new facilities and disclosing, if necessary, the opening up of new or additional sources of supply.

"2. The conversion of existing facilities, where necessary, to new uses.

"3. The studious conservation of resources and facilities by scientific commercial economies.

"4. Advice to the several purchasing agencies of the government with regard to the prices to be paid.

"5. The determination, wherever necessary, of priorities of production and of delivery and of the proportions of any given article to be made immediately accessible to the several purchasing agencies when the supply of that article is insufficient, either temporarily or permanently.

"6. The making of purchases for the allies.

"The board should be constituted as at present and should retain, so far as necessary and so far as consistent with the character and purposes of the reorganization, its present advisory agencies, but the ultimate decision of all questions, except the determination of prices, should rest always with the chairman, the other members acting in a co-operative and advisory capacity."

FREE WAR BOOK

Vegetable Gardening and the Home Storage of Vegetables

Thirty-Two Pages Fully Illustrated

Copies of this valuable publication will be forwarded free on receipt of 2 cents to cover postage.

As a result of war-time emergency, the home garden has become an institution of world-wide importance under the impetus given by the National War Garden Commission. The people of this country last year produced a crop valued at \$350,000,000 from gardens cultivated in back yards, on vacant lots and on other land previously untended. Much greater results are expected this year from activities along these lines, and this book, written by experts, has been provided for the purpose of teaching every one how to make a success of their back yard's garden.

FIGHT IS HOT AGAINST PARTY AMALGAMATION

Prohibition Delegates Deadlocked on Proposal to Merge With National Party.

ANTI-UNIONISTS ARE STRONGER

Win Preliminary Skirmishes—National Party, Formed by Socialists Succeeded From Antiwar Branch of Party, Assemble in Convention.

(By Associated Press.)—A day of spirited debate during which caustic epithets were exchanged and charges of disloyalty to the party made, delegates to the National Prohibition Convention still were deadlocked to-night on the question of merging with the new National party, formed at St. Louis by Socialists who disagreed with that party's stand on the war.

Throughout the day the anti-merging faction appeared to have won advantage, three times winning minor skirmishes, but by night leaders of each side, though predicting victory, were planning compromises to be offered later.

The first victory for the anti-merging faction came when they forced through a motion to make the debate on the question unlimited. Those favoring the merger attempted to have debate limited to thirty minutes for each side. They were overwhelmingly defeated.

After E. J. H. Prugh, of Harrisburg, Pa., charged that an attempt was being made to railroad through the merger. Those opposing amalgamation won again when they succeeded in passing a motion making a two-thirds vote necessary to pass the resolution.

DECLINE TO HAVE NATIONAL REPRESENTATIVE SPEAK

The third victory came when the merger faction was defeated in an attempt to have representatives of the National party, which convenes here to-morrow, address the convention after the close of debate. The anti-mergers insisted that the Nationalists speak before the debate closed, thus giving opportunity for rebuttal.

The resolution calling for the merger provided that a satisfactory platform must be adopted by the National party. The chief objections to the National platform were that it favored the single tax, and that its main purpose apparently was not national-wide prohibition, though delegates favoring the union insisted, however, that prohibition was the principal aim of the National party.

Herman P. Faris, of Clinton, Mo., was elected chairman of the convention without opposition.
